

Neighborhood Trees Surveyed

Southern Manhattan - Community Board 3

60 neighborhood trees were surveyed in the East Greenwich Village neighborhood of Manhattan. Most trees are located in Community Board 3. Of the trees surveyed, 5 were in excellent condition, 46 in good condition, 6 in poor condition, and 3 were dead. 22 of the trees are Honeylocust (*Gleditsia triacanthos*), 11 are Callery pear (*Pyrus calleryana*), and 8 are Littleleaf Linden (*Tilia cordata*). The most valuable tree surveyed is an estimated 72 year old London plane tree (*Platanus x acerifolia*) in poor condition valued at \$2,259.00. The 2nd and 3rd most valuable trees are a Callery pear (*Pyrus calleryana*) and a Japanese Pagoda Tree (*Styphnolobium japonicum*) both valued at \$1,924.00 and in good condition.
